HYPERLEVI WOODEN

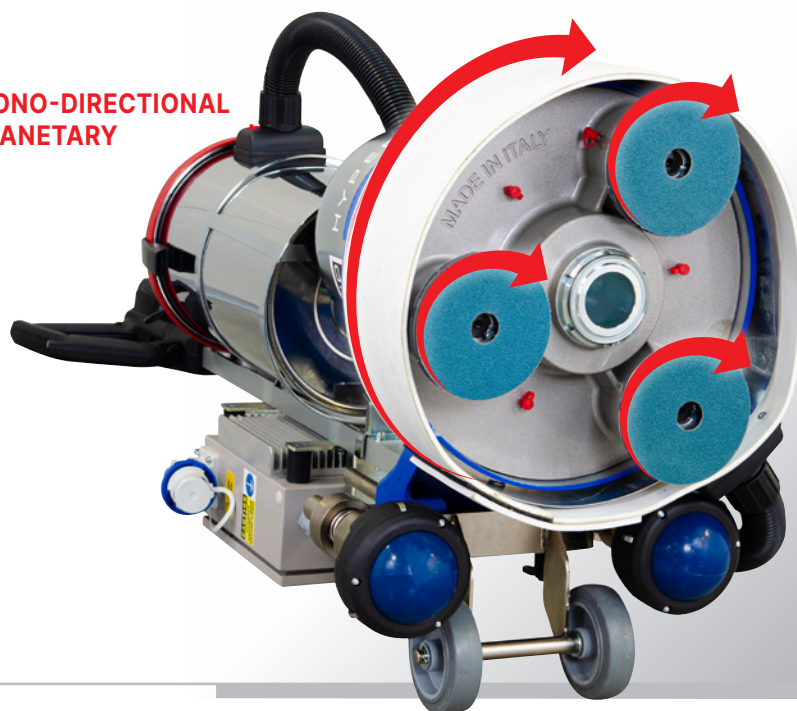

Perfect Parquet with the Innovative Sander!

MADE IN ITALY

HYPERLEVI ▶ WOODEN

**MONO-DIRECTIONAL
PLANETARY**

THE NEXT-GENERATION PROFESSIONAL SANDER FOR WOODEN FLOORS!

The HYPERLEVI WOODEN sander is revolutionary and versatile, capable of doing the work of 3 machines in 1:

- **Leveling:** Sands like a traditional belt or drum sander.
- **Finishing:** Finishes the surface with the precision of a single-disc machine.
- **Edging:** Sands right up to the wall, eliminating the need for a separate edging machine.

ABSOLUTE FLATNESS

Thanks to the spherical wheel system, HYPERLEVI WOODEN ensures unparalleled floor flatness.

DUST-FREE SANDING

The integrated suction kit guarantees completely dust-free sanding.

Multi-Directional Operation

Innovative spherical wheels allow smooth movements in every direction.

- **Effective in rough sanding.**
- **Excellent in finishing.**
- **Easy and lightweight to use.**

REACHES RIGHT TO THE EDGE!

The planetary design allows working right up to the wall, making the edging machine unnecessary. Perfect for tight spaces and any type of installation.

REDUCTION IN WORKING TIMES

With HYPERLEVI WOODEN, there's no need for an edging machine or single-disc machine, reducing working times.
